GREENTECH FUSION

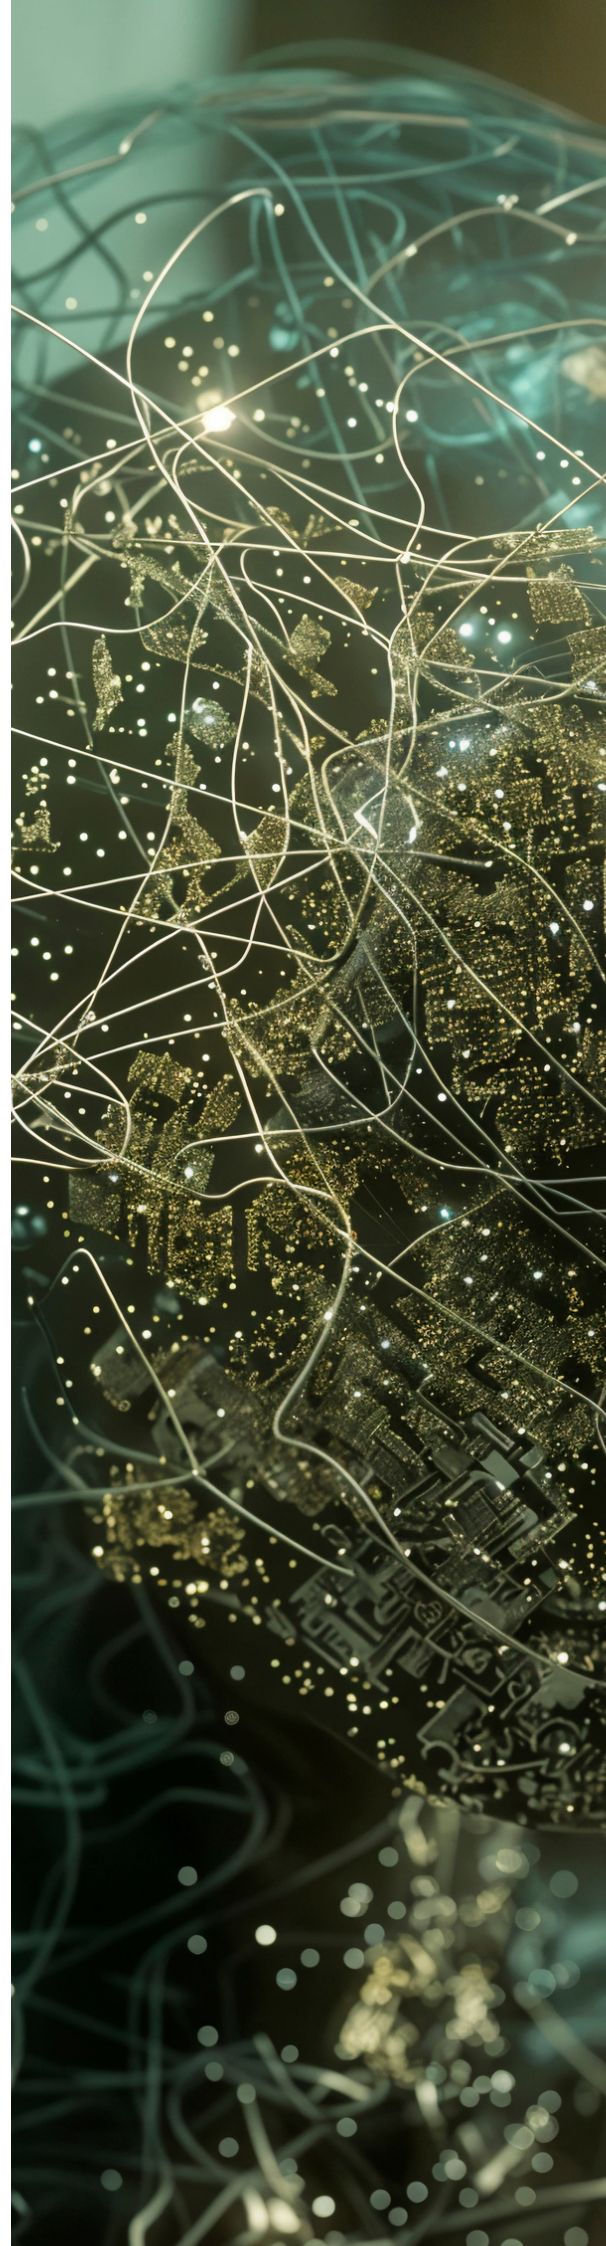

DIGITAL WITH CONSCIOUSNESS

Digital with Consciousness

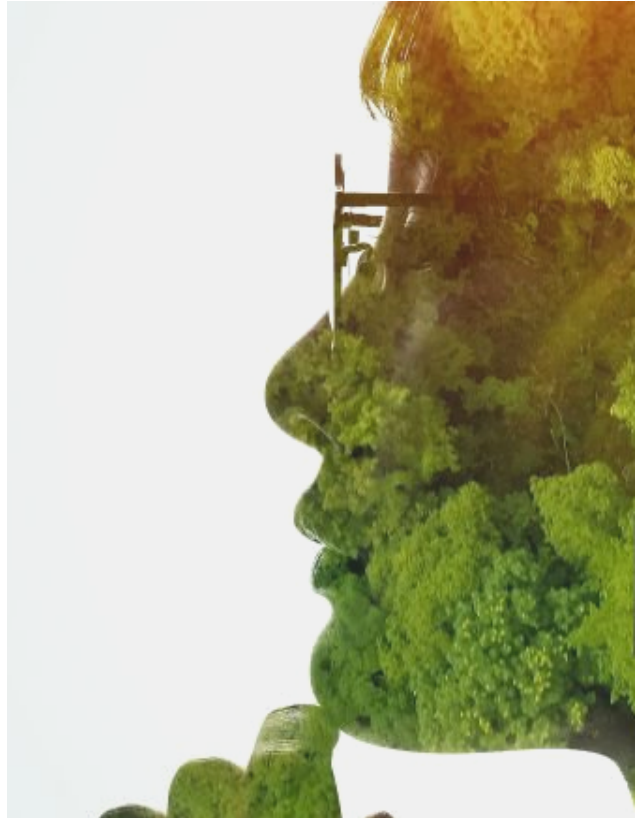

How can we reduce the environmental impact of our daily use of technology (the internet, social media, AI)?

Possible solutions:

- Interactive guide to “sustainable digital”;
- Personal digital footprint calculator;
- Social media campaign: “Less scrolling, more planet”.

Challenge

Technology has brought comfort and connectivity, but also an increase in energy consumption, misinformation and digital dependency. This challenge aims to rethink the use of technology in an ethical, critical and sustainable way. Teams are invited to develop ideas to reduce their digital footprint and promote the responsible use of the Internet, social media and artificial intelligence.

How can we promote more responsible and sustainable use of digital technologies in our daily lives?

Solutions may include digital best practice guides, digital footprint calculators, awareness campaigns, educational games or tools to promote more conscious technology consumption.

Assessment criteria

1. **Creativity and innovation – new approaches and originality.**
2. **Sustainability and impact – real contribution to the environment.**
3. **Feasibility and applicability – can it be implemented in a school or company?**
4. **Teamwork and communication – cooperation and clarity in the pitch.**
